Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11, and 23-26, drawn to a removable memory card, classified in class 365, subclass 189.05.
 - II. Claims 12-22, drawn to a method of handling data streams between a host interface and a flash memory, classified in class 365, subclass 230.08.
 - III. Claims 27-31, drawn to a method of operating a removable memory system , classified in class 365, subclass 221.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the removable memory card in Invention I can be operated by using other methods (i.e. read/write simultaneously) than that claimed in Inventions II and III, whereas the method in Inventions II, III can be apply to other memory types (i.e SDRAM..) than that claimed in Invention I.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II and III, restriction for examination purposes as indicated is proper.

Art Unit: 2824

5. A telephone call was made to Mr. Gerald P. Parsons on 12/9/05 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 2824
